

Int. Cl.: 24

Prior U.S. Cls.: 42 and 50

Reg. No. 3,097,115

United States Patent and Trademark Office

Registered May 30, 2006

Having demonstrated to the United States Patent and Trademark Office that the color blue has become commonly associated throughout industry with CROHMIQ Static Protective FIBC Fabrics, the color blue was officially registered as a trademark with Registration No. 3,097,115.

The trademark consists of the color blue as applied to synthetic resinous fabrics for use in the manufacture of bulk container in the nature of bags and wraps for industrial use.

The trademark registration provides Texene LLC with exclusive, nationwide rights to use the color blue mark for its fabric in any and all types of FIBC. Unauthorized use of the color blue mark is not lawfully permitted for NON-CROHMIQ FIBC products.

The trademark is not for a specific shade of blue; it includes any shade of blue used in an industrial packaging material that could cause an observer to believe the material was CROHMIQ fabric produced by Texene LLC.
